

Lynch Fluid Controls Inc. is a manufacturer of high quality fluid power components located in Mississauga, Ontario. We were established in 1987 and have been gaining recognition in many countries as a source of fluid power products.

From our home in Mississauga, we design, manufacture and export hydraulic manifolds, valve systems, electronics and a growing selection of products that have been created by our first class team. Our exclusive distribution arrangement with Sun Hydraulics has been the backbone in our manifold manufacturing division. We have been able to take cartridge valve integration to a new level, and are now suppliers to many well recognized fluid power establishments and OEM's. We now routinely design manifolds for the world market that interface with many manufacturers, fluids, materials and applications.

We are growing and currently looking for a **Tooling Management Technician** to join our dynamic team. If you are a positive and driven individual with a passion for quality and a desire to make a positive impact to the success of our company, then we want to hear from you!
